Thursday, October 7, 2010 Special Shape Glowdeo™:

Special shape balloons are defined as any balloon that doesn't conform strictly to the normal rounded balloon shape. Some shapes are simple – pointed ears and whiskers added to a "regular" balloon to make it into a kitty's head. Others – the flying houses, cars, cacti, ristras, bottles, cans, critters, and so on – are computer-designed engineering marvels costing tons of money. "Balloon glows" were invented in Albuquerque in 1979, when local pilots inflated balloons on Christmas Eve night as a "thank you" to local resident, who are used to seeing hot air balloons on a daily basis. Still, the sight of balloons lit from within at night like giant holiday ornaments is breathtaking, and "glow" events are now held all over the world. "All burns": when all the balloons fire their burners and light up at the same time, are perhaps the most spectacular single moment in all of Balloon Fiesta. The Balloon Glows, each one followed by New Mexico's most spectacular fireworks displays, are now among Balloon Fiesta's most popular events. Glows often have 150-200 balloons participating and an average of 150,000 spectators in the Park! To clarify, the balloons are tethered to the ground and do not lift off during Glowdeo™ events. The east-side of the Park has over 100 vendors selling all kinds of fair-type foods and everything a seasoned "balloonatic" or newcomer would want as a souvenir.

Register by phone, fax, e-mail or US mail. We will send a confirmation by e-mail.

The Small Print: Tour New Mexico, Inc. will not be responsible for events that are not available due to acts of God, weather or closures. Seats on the shuttle are non-refundable. If this event is altered to a "candle glow" which is firing burners only with no balloon aloft, we still go to the Park: the vendors are still open and you can still buy souvenirs, it's still an exciting place. If the weather is "iffy" we still go to the event!
